A sub-fund of Goleta, S.C.A. SICAV-RAIF Luxembourg

Fund Fact Sheet

March 31, 2021

Objectives: The sub-fund predominantly seeks capital preservation in the mid-to-long term, obtaining consistent and superior investment returns. The strategy is based on the modern portfolio theory (MPT), pursuing the best way to invest considering the potential risk-reward relation. The Sub-fund only invests in well-known exchange traded funds (ETFs) and managed Funds worldwide. These must comply with the investment policy of the Sub-Fund. The portfolio contains a broad range of underlying assets including equities, bonds and alternative investments. The investment strategy is continuously and thoroughly revised and rebalanced according to changes in analysis results, market condition and risk and return parameters and objectives.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you. We have classified this Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Fund's capacity to pay you. You may lose up to the totality of the amount you have invested in the Fund. This product does not include any protection from future market performance so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.
